

WHO WE ARE

MISSION

Established in 2020, our mission is to give hope and opportunity to those suffering from infertility and fighting for their dream of parenthood. The Stork Foundation provides financial assistance to low resource individuals who require costly medical infertility treatments that would otherwise be out of financial reach.

FOUNDATION OVERVIEW

The Stork Foundation for Infertility is here because we know what family means.

Everything.

Anyone can be challenged to grow their family. Regardless of race, religion, sexuality or economic status, infertility doesn't discriminate.

Infertility is not just a medical issue, but a fight for a DREAM.

We are a 501(c)(3) non-profit organization with very little overhead (no salaries are paid), and nearly every penny of donations received directly supports our grant recipients.

Stork Babies and more on the way in 2024

STORK BABIES

Our first Stork Baby, Meredith, was born on October 26, 2021 and will be turning 3 this year!

Savanah and Jared, Meredith's parents, have shared a wonderful update below.

Her favorite things are pretend play, keeping an eye on her younger brother, and being outside whether its swimming, going to the park, riding her "jeep," or just hanging out.

Meredith continues to amaze us everyday. She is smart beyond her years, doesn't forget anything, and strong-willed. She is always making any one that meets her laugh and has a personality and smile that lights up the room.
